IPROFESSIONAL PROFILE

Full-Stack Developer with commercial experience in React, TypeScript, Python/Flask and automated testing. Combining a PhD in Biochemistry with modern software engineering expertise, currently developing AI-powered IoT platforms and data-driven applications. Experienced in agile development, CI/CD pipelines and AI-assisted software delivery.

PROFESSIONAL EXPERIENCE

Full-Stack Developer – Applied AI & IoT Platforms

beebucket GmbH, Ulm

09/2025 – present

beebucket builds tailored AI solutions for industrial IoT, smart cities, and EU Data Act compliance — delivering edge-optimised AI applications used by municipalities and logistics operators.

- Backend development of microservice architectures using Python/Flask for AI-Hub Core — a real-time IoT data cataloguing and intelligence platform
- Frontend implementation with TypeScript and React.js; built reusable React component library reused across three internal product surfaces, reducing duplicate UI implementation effort.
- Developed Playwright end-to-end test suites covering critical user workflows and integrated them into GitHub Actions CI pipelines.
- Integrated AI-assisted coding (GitHub Copilot, Claude AI) into daily workflow, reducing review-cycle time and improving refactoring throughput
- Collaborated cross-functionally in Scrum teams on beebucket — an IoT data licensing product addressing the EU Data Act — deployed for public transport and municipal clients
- Participated in frontend code reviews and maintained coding standards.

Frontend Developer

Informatikwerk GmbH, Bietigheim-Bissingen

03/2024 – 09/2025

- Developed and shipped web applications in JavaScript and React.js, delivering responsive UIs for enterprise clients
- Wrote unit tests (Jest) and end-to-end tests (Selenium), improving test coverage across critical user journeys
- Active participant in agile ceremonies; completed code reviews in cross-functional Scrum/Kanban teams

Business Development & Web QA

Sofrino Lda, Lisbon, Portugal

2011 – 2017

- Led client acquisition and project delivery for web development engagements across SME customers
- Performed UI testing and quality assurance for client web applications; developed and maintained CMS-based websites
- Designed and implemented the corporate Softrino website using a CMS platform

EDUCATION & QUALIFICATIONS

Fachinformatikerin für Anwendungsentwicklung (IHK) — 09/2024 – 09/2026

Blitzklasse – berufsbegleitend | Informatikwerk GmbH & beebucket GmbH

Final examination in progress (written examinations passed; project presentation and Fachgespräch pending).

Full-Stack Web & App Development — *Certificate awarded*

10/2022 – 02/2023

WBS Coding School, Berlin — 12-week intensive: JavaScript, React.js, Node.js, MongoDB, Docker, CI/CD

Dr. rer. nat. — Biochemistry — *Supervisor: Prof. Isabel Moura*

2006 – 2010

Universidade Nova de Lisboa, Portugal | Thesis: Metal-binding proteins in sulphate-reducing bacteria

MSc Organic Chemistry | BSc Chemistry

2001 – 2006

Donetsk National University, Ukraine

TECHNICAL SKILLS

Frontend	React.js, TypeScript, JavaScript (ES2022+), Vue.js, HTML5/CSS3, MUI, Bootstrap
Backend	Node.js/Express, Python/Flask, Java, Spring Boot, REST APIs, Microservices
Data & DBs	PostgreSQL, MongoDB, SQL — data pipeline integration for IoT/AI platforms
Testing & DevOps	Playwright, Jest, Selenium Docker, Git, GitHub Actions, CI/CD pipelines
AI & Tooling	GitHub Copilot, Claude AI, Contentful CMS

LANGUAGES

German	English	Portuguese	Russian / Ukrainian
B2 (working proficiency)	B2 (working proficiency)	B1	Native

ADDITIONAL

Nationality: Portuguese (EU citizen)

Driving Licence: Class B

Location: Dornstadt / Ulm region — available for on-site and hybrid roles

Dornstadt, June 2026
